RE: Integrated Pest Management Announcement

Variety Child Learning Center practices integrated pest management, which uses measure to suppress pests with minimal impact on human health, the environment and non- target organisms. Pesticides will only be used as a last resort and if needed, the least toxic, pest-specific alternative will be selected. Anyone wishing 48-hour notification of pesticide application should request with the facilities office at 516-921-7171 ext 2248.

Thank you.
